## Our Mission

To serve as a social innovation platform that acts as a catalyst to positively impact marginalized communities and make them realize their potential through rights, protection, education and livelihood

## Our Vision

To create an environment of active participation and protection for each child to ensure their sustainable development

*Arup Ghosh*

# Co-Founder's Note

The pandemic tested what we have believed to be our core strengths, our flexibility and ability to move quickly as needs arise. As moving through the covid period we somehow found interesting models which can be replicated and can be adopted by the government. Namely our worksheet distribution model which we could positively inspire the government to adopt and we sincerely hope in the coming year we get more opportunities to work in close association with such partners.

Tomorrow's Foundation major focus move to creating livelihoods program specially in the rural communities as so many of them lost their jobs and so many migrant workers moved back to the village. A major focus has been creating women progressive farmers so that they create positive impact in their own communities.

On the hindside the total budget reduced to nearly forty percent n the total management had to be extra cautious on this but keeping in mind not to curtail on any Hu-

A lot has been achieved on the ground but unfortunately due to budgetary issues we couldn't communicate much. Hope next year we can focus on this and to have more partners in creating the impact on the ground.

23rd March 2020 lock down was called in India. Our team raised to the occasion quickly

to create 5 Covid Field Hospitals, organized Dry Rations to 36000 beneficiaries, created food security for 20000 vulnerable families and reached new frontiers in West Bengal and in Sikkim.

Although the schools were closed, our job did not stop. We reached our children through worksheets and through digital medium.

Many thanks to the team for standing by Tomorrow's Foundation now and always. We also greatly appreciate our donors generously, partnerships and friendships. With Heart

**Arup & Swarup Ghosh**  
**Co-Founders**  
**Tomorrow's Foundation.**

*Anuradha Bhattacharjee*

*President's Note*

We come to the end of 2021, feeling inspired yet again by the efforts of our TF Team members who have continued to innovate and strive to create impact in their projects. The task has been anything but easy. The Covid lock-down which started in March 2020 and continued intermittently till the middle of 2021 and the rising cases of infection of the second wave from March to May 2021 made work-in-person and commuting risky and difficult for our project staff. Yet, they have persevered and given their best. Schools continued to be shut till November 16, 2021 when the senior classes 9 -12 started offline. However, till date, the primary schools are not open for students and that is where TF has two critical interventions in its Education Vertical. In the urban Enhancing Primary Level Intervention Project (EPLI) in 25 Government SSA Schools

in Kolkata, the major achievements were TF's success increasing online teaching for students, motivating the Government teachers to participate in such sessions

and developing a participatory model for the parents. By December 2020, more than 300 parents were engaged in preparing educational materials for their children in the EPLI Project.

In the Rural Education Project, Sahaj Path, which runs in 180 primary schools in the Birbhum District, West Bengal, teaching has continued in community centres, with a blend of online classes when possible. At all times, social distancing, masking and keeping all the Covid sanitization protocols in place have been maintained. Repeated assessments and monitoring of the students have shown that despite some expected learning loss - on the whole, more than 50% of the students have improved from the baseline assessments in English, Bangla and Math. man Resources.

Alongside Sahaj Path, TF has expanded its footprint in the Birbhum area with other activities. In January 2021, with a new grant from the Azim Premji Philanthropy Initiative, the Nutri Garden Project was started amongst the tribal communities of Santhal and Kora in the Labhpur Block (Birbhum District) to build food security and encourage multi-cropping. The resultant community resilience and confidence, along with improved nutrition, has created a positive impact which is sustainable and self-propagating because there is inbuilt income generation potential. This Project is underpinned by TF's experience from its Shivansh Organic Farming Project, also in Birbhum, which now boasts of more than 200 progressive farmers.

The Skills Projects, be they Skills@School or TF Smart Centre have continued to operate through online classes and TF expanded its geographical area of work with NABARD-funded Animation Training Programme in Temi, Sikkim. The Project had the objective of skilling youngsters who had to return home from other parts of India due to the Covid lockdown and subsequent job loss. The Programme trains students to get employment or start their own business ventures. The course follows the National Skill Development Corporation guidelines and protocols. We hope to ring in the New Year with new achievements and new projects on the horizon in 2022. But before we sing Auld Lang Syne, and bid the old year farewell – a little bit of quiet introspection will not come amiss. TF and its teams have courageously forged ahead and kept our flag flying but we must think of the many who have lost jobs and those businesses which had to down shutters during these terrible times. TF in the new Financial Year has actually started to help such people ... but that is a story for later. Thank you TF Team for your commitment and loyalty to our organisation.

# Our Footprints

# The Two Pillars

Tomorrow's Foundation identifies children at an early stage and works as a catalyst to help them attain a self-reliable adulthood. The purpose is to create a healthy environment where children can grow up safely, complete their education, develop skills, and become role models for their community by being able to get jobs and earn a living.

# Education

# Agamir Pathsala

## PROJECT OVERVIEW

“Agamir Pathsala” project has been started in January 2022 at 18 tribal villages in MD.Bazaar block of Birbhum district. The objective of this project is to achieve the learning goals in terms of basic literacy and numeracy skills. The mode of instruction of this project is bilingual, i.e. Santhali and Bengali.

## SUCCESS STORY

Habrapahari community centre had very little attendance when the project started. Many parents did not understand why they must send their children to study every day! The community teachers visited them day after day, introducing them to the methodologies and arranging them to meet with the other children who were comparatively regular at the centre. One of the students who became a regular in that student is Kamunu. Gradually her parents, Jubin and Singa also started accompanying their child, sat through the classes and finally asked for input so that they can follow similar methods at home.

# Charaibeti

## PROJECT OVERVIEW

The Charaibeti project basically works with children with disabilities belonging from marginalized communities of Kolkata. The program mainly focuses on providing remedial education, with overall development in the domains of communication, social, occupational, academic and recreational skills. All the current beneficiaries of the project are children with intellectual disabilities. Currently, all the children and their mothers are trained and adept at working with digital tools on the online mode.

## SUCCESS STORY

Wafiya is a 5-year-old child with Down Syndrome and is also a cancer survivor. Wafiya has never been to school before until she met the Charaibeti team in 2021. She has been attending regular classes online with us and now knows the alphabet, names of common animals, colours, fruits and vegetables. Wafiya enjoys music and dancing too! She has made progress in self-help skills and communication too. We look forward to working with Wafiya further more and eagerly wait to her blossom in the years to come!

# Project Freedom

## PROJECT OVERVIEW

The project works toward empowering out-of-school and never-been-to-school adolescents and transforming them into responsible citizens of the country. The transformation happens through: education following an open-schooling system, various market-linked and employable skills such as home appliance repairing, jewellery making, basic computer, communicative English, and training on life skills, self-defence, rights, and entitlements. The project runs around three locations in Kolkata and covers 658 adolescents at this moment.

TOTAL IMPACTED

## SUCCESS STORY

John, a 16-year-old, lost all his wits due to substance addiction. His friend circle was not the best one and he was influenced in the wrong way. Even his family denied to help him out of the situation.

Tomorrow's Foundation reached out to him at a crucial juncture and guided him toward a better life. The programmes on education and life skills helped him to get his bearing back. At this point, he is studying for his board exams through the National Institute of Open Schooling.

He has turned out to be one of the most capable peer leaders and is reaching out to his old friends, to persue them to join him and Tomorrow's Foundation..

# Enhance Primary Level Intervention

## PROJECT OVERVIEW

EPLI has been initiated in 2018 with 12 schools which scaled to 25 schools in 2021-22. It aims towards bridging learning competency gaps for basic literacy and numeracy for children of urban Govt. primary schools. This project provides direct educational input to the children through both online and offline mode (at school premises & community centers) with hand holding of school teachers through a blended model. Preliminary assessment is done through baseline study, followed by midline and end line study. Results are shared with the Govt. teachers. It also provides scope for parents' capacity building to make them co educators.

## SUCCESS STORY

Tapashya Mondal was a student of class V of Nabajatak Vidyamandir in 2021 and also attached to EPLI programme. During Covid 19 pandemic, when online mode of learning started, her parents gave priority to her brother by providing him a smartphone. When TF started community centers, she was selected for bridging the gap in her desired competency level. She joined the class secretly and her learning level was improved, which was appreciated by the teachers of Nabajatok School. Later her mother realized the need and provided her with a second hand Smartphone from some relative. With this, the student made remarkable improvement and attained her desired learning competency.

# Sahajpath

## PROJECT OVERVIEW

Sahajpath project started in January 2020 in Dubrajpur Block of Birbhum District. The main objective of this project is to ensure a systemic change in teaching methodology to bridge learning competency gaps in primary school children in terms of basic literacy and numeracy. We are currently working in 170 primary school catchment areas of Dubrajpur block.

## SUCCESS STORY

Debashree Bauri was a distracted child in our learning centre. She belongs to a family of daily wage earners where nobody had the time to look after her emotional and intellectual growth. She hardly ever participated in educational activities, or even in the games. Tomorrow's Foundation started involving her in various group activities along with the other children. Gradually some changes in her behaviour became visible. The immediate impact was on her education. From a beginner or o-level in standard-III, she improved several notches within a month of intensive focus. She is now showing the way.

# Uttaran Bastar

## PROJECT OVERVIEW

The Uttaran Bastar project started in 2010, comprises of two children homes (Child Care Institute), in district Dantewada (100 seater for girls) and Bijapur (50 seater for boys) to support those children who lost their parents, family and home due to insurgency trouble in these areas.

The project has been run by Tomorrows Foundation in collaboration with District Women and Child Development, Govt. of Chhattisgarh.

In the beginning, this project was considered as residential hostel but from year 2016-17 these two hostels were registered as children homes under The Juvenile Justice (Care & Protection) Act, 2015-16.

The project will facilitate health, nutrition, education, protection (from all kind of abuse/neglect and maltreatment), sports, counseling services, life skill training and social mainstreaming.

## SUCCESS STORY

Priya (name changed), 15 years old, she belongs from Dantewada, severe naxal infested area of Chhattisgarh. She lost her parents during early childhood. After her parents demise she has been look after by her uncle. She became very sad that time & traumatized by loss of her both parents. She has two younger sisters who are also living together in the children home.

# skills & Livelihood

# Health Care Programme

## PROJECT OVERVIEW

Tomorrow's Foundation Health care program focuses on creating livelihoods for urban youths from disadvantaged socio-economic backgrounds. It aims at skill enhancement intandem with market requirements. It is an effort towards bridging the gap between demand and supply of skilled human resources in the fast-emerging services like the health care sector for the General Duty Assistant/Home Health Aid profile. Till now our mobilization covered 2200+ beneficiaries and 550+families.

## SUCCESS STORY

Jhuma Sapui comes from a financially weak family. She lives with her father who is unable to work and an elder sister who is a domestic helper and is the only earning member in her family. Due to financial crisis she could not continue her studies after Secondary. However, she was able to complete the Healthcare Training Program and is currently working at Polygon Medical Center, as a Lab Assistant. She earns around Rs. 9000 per month which has been a big help for the family.

# skills@school

## PROJECT OVERVIEW

Skills@School is the Skilling programme initiative from Tomorrow's Foundation. Beginning from 2017, this "Vocational Skilling programme" is aimed at the adolescents from challenging socio-economic backgrounds, between the age group of 14 to 18 years, studying in the Government Schools in Kolkata and its suburbs. The children are trained on Mobile Repairing, Robotics & DIY, Beauty & Wellness, Jewelry Designing, Conversation English, Financial Literacy, Preventive Health and others. The aim is to build self-confidence, shape them into role models for younger children in their communities, encourage them to stay in school and provide them the means to earn part-time as they study.

Gautam, a Star from Paharganj Life Project Center, shares his story and tells us more about his job at Decathlon

Hello, my name is Gautam Mishra. I am 22 years old and I was born in Gurauwajot Grant (Uttar Pradesh). I have been living in Delhi for the last 21 years, from where I also did my schooling. Before joining LP4Y, I was working in a local shop as a salesman. Now I am pursuing a Bachelor of Arts at Delhi University and I am working at Decathlon as a sport leader in the fitness department.

# Mushroom Cultivation

## PROJECT OVERVIEW

From August 2021, this project dealing with “Promotion of Mushroom Cultivation and Enterprise Development among Rural Women of Birbhum District” was initiated by Tomorrow’s Foundation at 15 targeted villages in Jamnaarea of Labpur, Birbhum District. The key objective of this project is to create a scope of sustainable livelihood for women. This project has been implemented by covering 500 families. Nitya Sangha, the SHG cluster of Jamna GP, is supporting Tomorrow’s Foundation in implementation of the project on the ground.

TOTAL IMPACTED

## SUCCESS STORY

Bharti Das, along with other members of Maa Singhbahini SHG of Hatkaluha village are cultivating mushrooms. She was trained on Mushroom cultivation and then started the unit with the other members of her SHG. She started with 30 cylinders (of mushrooms) which is yielding her production of around 18 kg in 1st harvesting, thereby continuing the production further. The mushroom is sold at the rate of Rs 50-80 kg per month. Bharati earned around Rs 1800 from the first batch of production and now she is running the unit with her own capital investment. Therefore, the mushroom production has resulted in becoming a sustainable and supplementary livelihood solution for Bharati and her fellow SHG members.

# Kitchen Garden

## PROJECT OVERVIEW

The project focuses on Nutritional Vegetable Cultivation through the preparation of Kitchen gardens. The intervention supports food & Nutrition security along with income generation for poor women in closed and vulnerable tea gardens and forest villages of the Alipurduar district. This project was implemented on 4 blocks with around 2270 women.

## SUCCESS STORY

Meet Reaudi Khariya of Madhu Tea garden in Alipurduar. Eight years ago, the garden closed and unfortunately she lost her job. Currently, she works as temporary day labour in the near by tea garden and earns Rs130 a day. On October 2021, Tomorrow Foundation's approached her to train and help develop nutri-gardens for basic food security of her family. The initiative has helped her grow vegetables in the backyard.

Besides the daily consumption of her family, she sells the surplus produce. After the initial success in growing Radish, spinach, beans, pumpkin and carrot, Reaudi engaged a bigger area for farming and earned around Rs 3000 by selling the surplus from her first yield.

# Shivansh Kheti

## PROJECT OVERVIEW

Tomorrow's Foundation started its "Climate Resilience Agriculture Practices" project that promotes non-toxic vegetable production through natural resource management in order to maintain biodiversity. The intervention supports Nutri-garden farming, builds community resilience in terms of food security and most importantly maintains the quality of the soil for future in Labpur & Bolpur Blocks in Birbhum District of West Bengal since January 2019.

TOTAL IMPACTED

## SUCCESS STORY

Partha Pal, a "young" champ who lives at Sukhbazar under Sian Muluk Gram Panchayat of Bolpur Sriniketan Block. Similar to everyone else in his community he was also involved in using chemical fertilizer and pesticide. The story changed after his introduction to Tomorrow's Foundation. 'Tomorrow's Foundation' mobilized him to apply the 'Shivansh Farming' methodology through an orientation program and build a nutri-garden in a 1000 square meter area where he produced 13-18 types of vegetables. This is not only fulfilling the nutrient requirement of his family but also generating a daily income.

# Banana Cultivation

## PROJECT OVERVIEW

From March 2022, this project dealing mainly with “Financial Assistance to Farmers for Banana Plantation” was initiated by Tomorrow’s Foundation at 13 targeted villages in 7 GPs of Labpur, Birbhum District. The foremost objective is to ‘Improve the economic condition of the farmers, availability of market linkage with the Keventer through Harvogreen producer Company Limited’. This project covers 120 farmers with the support of the NCR Foundation. Panchayat Samity of Labpur Block is supporting the intervention on the ground.

TOTAL IMPACTED

120

120

13

## SUCCESS STORY

Labpur is one of the backward blocks of Birbhum district and farming is the main livelihood of the people. Most of the farms here are single-crop due to water scarcity. Paddy is the main crop here and is cultivated only in the rainy season. Paddy farming gives a return of around ₹ 5000-8000 per bigha which is inadequate for the family to survive financially. In

March 2022, Tomorrow’s Foundation initiated a project of banana cultivation on 130 Bighas of land covering 120 farmer families. Solar submersible pumps have been installed for irrigation. The project is promoting the cultivation of the G9 variety Banana which usually gives profits of around Rs 40,000 per year for 5 years. TF team has also linked with a marketing agency for the selling of the product.

# Nutri - Garden Farming

## PROJECT OVERVIEW

The nutri-garden farming programme of Tomorrow's Foundation started from Jan'21, and consists of three projects. As of now the programme covers 2250 families from 39 targeted tribal villages of Labpur, Birbhum District. The programme focuses on non-toxic vegetable production through natural resource management to maintain bio-diversity. The objective to build community resilience in terms of food security and livelihood. The programme is supported by PwC Foundation, Azim Premji Foundation and Give Foundation..

	APF	800	330	470
<u>TOTAL IMPACTED</u>	PwC	450	316	134
	GF	1000	564	436

## SUCCESS STORY

Before the start of the project, there were only 5-6 vegetable gardens in Khagradanga village (Under CM-II GP) and the gardens were utterly untidy. They were totally dependent on the market. After getting various training and seed inputs from the programme, the area now has 69 nutri-gardens with an average the garden size 850sq.ft. These gardens were created following organic methods in this entirety and thus has a big impact in the beneficiaries regular vegetable consumption. They are able to sell the excess production in the local market. Now the families do not need to purchase vegetables. This process has enabled them save Rs-300 per month on average.

# Sustainable E-Waste Management

## PROJECT OVERVIEW

Tomorrow's Foundation with the support of NABARD, conducted a scoping study on the sustainable management of e-waste in Sikkim for conservation and livelihoods. The main goal of this action research project was to understand and evaluate the entire e-waste management process in the state of Sikkim. The research was done for a period of 3-4 months. A consultative workshop was held in Gangtok on 4th of March 2022 to peer-review the report and its specific inputs. It brought more than 60 concerned persons from Sikkim in the field of e-waste management.

## TOTAL IMPACTED

A state level e-waste management policy will benefit the whole state, particularly the urban areas where maximum e-waste is generated.

## SUCCESS STORY

The project along with the consultative workshop was a huge success.

The work got an incredible acknowledgment. All the relevant ministries got persuaded for the need of e-waste management policy in Sikkim. Tomorrow's Foundation is working closely with Department of Information Technology (DIT) on the policy. The whole state of Sikkim will benefit from the successful draft of the policy. Sikkim will also become the pioneer state for taking these actions towards e-waste management in India.

# Awareness on 'Sustainable Consumption' by Managing Home Bio-waste and Developing Kitchen Garden at Home in Gangtok Sikkim

Overview-Green Action Week is an initiative by the Swedish Society for Nature Conservation (SSNC) and is carried out in India coordinated by CUTS International. Observed each year during the first week of October (Oct. 4-10, 2021), is a global people's campaign to promote sustainable consumption. Around 60 organisations in 40 countries in Africa, Asia, Europe, North- and South America are participating in the campaign in 2021.

TF had partnered to organize this GAW campaign in Sikkim state of India.

In this campaign, training to convert household waste into fertilizer is given to households/youths along with support in making kitchen garden at their home space.

A workshop has been organized engaging different government and other stakeholders to discuss the GAW theme of sustainable consumption and home waste management.

Total impact- This campaign had directly intervened with 20 households (for training and input distribution) and further awareness posters has been put in all important points (around 50) of Gangtok city.

# Backhoe Loader Operator Training Programme

## PROJECT OVERVIEW

We have started a training programme of backhoe loader operator with joint venture in between Tomorrow's Foundation and gainwel cat at MD Bazaar block in birbhum district of West Bengal on May 2022. We have taken 20 trainees as a model. We have devided them into two batches. Our objectives are to certify them with the heavy motor vehicle licence and good employment opportunities. We are hopeful to secure more 500 trainee's life with opportunities in future. Our commitment is to ensure them a secure livelihood and a bright future.

# Watershed Project

## WHAT IS WATERSHED ?

A watershed is an area of land that drains or “sheds” water into a specific water body. Every body of water has a watershed. Watersheds drain rainfall and snowmelt into streams and rivers. These smaller bodies of water flow into larger ones, including lakes, bays, and oceans.

According to UN conference on water at Mar del Plata, Argentina in 1977, “Watershed is defined as any surface area from which runoff resulting from rainfall is collected and drained through a common point. It is synonymous with a drainage basin or catchment area. A watershed may be only a few hectares as in small ponds or hundreds of square kilometers as in rivers. All watersheds can be divided into smaller sub-watersheds”.

A watershed embraces physical-biological features as well as socio-economic and political features which have to be integrated into the planning and management process.

## OBJECTIVE

The Broad objective of program is to conserve natural resources and Utilization of conserved resource for livelihood development of people of area by developing proper skill and capacity to undertake it.

## Note 20: Significant Accounting Policies and Notes on Accounts

(Followed in forming Financial Statements for the year ended March 31<sup>st</sup>, 2022)

### 1. SIGNIFICANT ACCOUNTING POLICIES

#### A) BASIS OF ACCOUNTING :

i) These accounts have been prepared in accordance with historical cost convention, applicable accounting standards issued by the Institute of Chartered Accountants of India and relevant provisions of the Society Act, 1961.

ii) A financial and administration manual, following standards to maintain transparency is prepared and ratified by the Governing Body of the society. This manual is followed in carrying out accounting activities. This manual is available with all units as well as on the website of the organization.

### Revenue recognition Voluntary contributions.

1. Voluntary contributions are non-exchange transactions, which means that resources are received by TF with no nominal consideration provided directly in return to the donor. The resources are to be applied towards advancing the Fund's mission.

2. Voluntary contributions are received from governments, other non-governmental organizations and individuals.

3. Voluntary contributions may be subject to terms in a binding agreement imposed upon the use of the resource (termed earmarked funds or other resources) or may be free of specific terms allowing TF to direct such resources according to its mandate (termed unearmarked funds or regular resources).

4. With regard to contributions, TF recognizes revenue in full, including for multi-year contributions, at the time the agreement is signed as all earmarked contributions are taken to have stipulations and restrictions.

5. Contributions received in advance of a specified period consist of cash contributions which were received before the formal conclusion of the contribution agreement, and are to be used by TF in future periods specified by donors.

6. Revenue from voluntary contributions is shown net of: (a) Returns of unused funds to donors, transfer of unused funds to regular resources, transfer of unused funds to other resources and write-downs of receivables that are no longer enforceable by TF following the expiry or termination of contribution agreements;

7. Realized and unrealized gains and losses on foreign exchange as TF does not assume the risk of foreign exchange on contribution revenue consistent with its Financial Regulations and Rules.

8. Revenue is recognized when it can be reliably measured, when the inflow of future economic benefits is probable and when specific criteria have been met for each of the types of activities described below:

a) All grants are recognized on cash basis except a few grants which have been accounted for on accrual basis on receipt of confirmation from the Govt. Agencies / Donor Agencies. Expenditures are recognized on accrual basis. In the case of a program undertaken with the support of some government and other agencies, though the funds received are in the nature of program execution

**TOMORROW'S FOUNDATION.**

**417, Hossenpur, KMC Ward No. 108, Kolkata – 700107.**

charges under contract, the same is reported as grant in view of the restriction on the expenditure and its nature as reimbursement of expenses.

- b) Interest income is recognized on a time proportion basis considering the amount invested and the prevailing rate of interest. The total interest income of Rs.1593719 has divided between FCRA for Rs.1022161 and Rs.571558 for non FCRA fund account.

**B) Recognition of expenses.**

Expenses are recognized in the statement of financial performance in the period to which they relate.

**C) FIXED ASSETS :**

**a) Property and equipment**

1.. Property and equipment is stated at cost, less accumulated depreciation and accumulated impairment losses. This includes costs that are directly attributable to the acquisition of assets and the initial estimate of dismantling and site restoration costs. Where an asset is received as a contribution in kind, the fair value as at the date of acquisition is deemed to be its cost.

2.. Property and equipment includes right-to-use arrangements that meet the criteria for recognition. An equivalent liability is established if the arrangement has conditions attached to it. The liability is released to revenue at the same time as the value of the asset is consumed through depreciation or impairment.

3.. Subsequent costs are included in an asset's carrying amount or recognized as a separate asset only when it is probable that future economic benefits associated with the item will flow to TF and the cost of the item can be measured reliably. Repairs and maintenance, which do not qualify for capitalization, are charged to surplus or deficit in the period during which they are incurred.

4. Land is not depreciated. Depreciation on other items of property and equipment is calculated using the written down method as per income Tax ACT1961. When parts of an item of property and equipment have different useful lives and are significant, they are accounted for as separate items (major components) of property and equipment.

5. The gain or loss arising from the disposal or retirement of an item of property or equipment is the difference between the sale proceeds and the carrying amount of the asset, and is recognized in other revenue or expenses within surplus or deficit when the block of the assets is no more exist.

6. TF capitalizes costs to upgrade, expand or improve an existing own or leasehold property or to construct a new physical property that is intended to be used by TF. Construction in progress is stated at cost and not depreciated until the works have been completed, eligible costs have been fully accumulated and the new asset is ready for use.

**D) Intangible assets**

1. Separately acquired intangible assets (e.g. software and rights) and internally developed software are stated at cost, less accumulated amortization and accumulated impairment losses. TF does not have any intangible assets with indefinite lives.

2. Amortization of intangible assets is recognized in surplus or deficit on a written down method of the related assets. Software is amortized over periods ranging from 3 to 6 years. Other rights and licenses are amortized over the shorter of the licenses or rights period and 2 to 6 years.

**Impairment of non-cash generating assets**

1. Property and equipment and intangible assets are reviewed for impairment at each reporting date. Certain events or changes in circumstances may indicate that the recoverability of the carrying amount of such assets should be assessed, including any significant decrease in market value. An impairment loss is recognized in other expenses within the statement of financial performance when the carrying amount of an asset exceeds its recoverable service amount. The recoverable service amount of an asset is the higher of the asset's fair value, less costs to sell, and its value in use.

2. Impairment losses recognized in prior periods are assessed at each reporting date for any indication that the impairment value has decreased or no longer exists.

**Financial Liabilities.**

Accounts payable and accruals arising from the purchase of goods and services are recognized when supplies are delivered or services consumed. Liabilities are stated at the invoice amounts, less the payment discounts if eligible at the reporting date. Where invoices are not available at the reporting date, the liability is estimated and recorded. Financial liabilities measured at amortized cost, due within 12 months of the date of the statement of financial position, are classified as current liabilities. Otherwise, they are classified as non-current liabilities. TF has no noncurrent liabilities during the year under audit.

**E) DEPRECIATION/AMORTIZATION:**

Depreciation on assets is provided on Written down Value method at rates and in the manner as prescribed in the Income Tax Act 1961.

**F) Treatment of Restricted Funds Budget based expenditure accorded by Funding Agencies and Funds Directly Facilitated to the Beneficiary Groups:**

G) The expenditure on projects taken up with the support of donor agencies is, as far as possible, incurred according to the plans and budgets agreed upon. However, in few cases deviations occur at the time of project execution depending upon various circumstances, such as location, awareness among the beneficiaries, local customs, availability of inputs, legal restrictions, etc. such variations, monitored regularly, are generally intimated to the donor in advance.

H) The specific funded activities has been accounted for separately after receiving instruction from donor and other general donations are taken as revenue of the society in the year of receipt.

**I) EMPLOYEES BENEFITS:**

- i. Employees Provident Fund has been maintained with the Employees Provident Fund Commissioner under EPF & Miscellaneous Provisions Act, 1952.
- ii. Employees Health Insurance has been maintained with The Employees State Insurance Corporation under ESIC Act, 1948.
- iii. Employees Gratuity Scheme has been maintained with Life Insurance Corporation of India (Pension and Group Schemes Department) under the Payment of Gratuity Act, 1972. The gratuity fund assets and gratuity fund liabilities as on 31.03.2022 is Rs.1248813.00 and recognized gratuity fund assets during the year 2021-22 is Rs.1429506.00

**TOMORROW'S FOUNDATION.**

417, Hossenpur, KMC Ward No. 108, Kolkata – 700107.

**2. NOTES ON ACCOUNTS :**

- a) The total depreciation of ₹ 3207333.00 has been allocated between Capital Reserve and Income and Expenditure Account during the year under audit. Out of the above, an amount of ₹ 2,06,907.00 has adjusted against Capital Reserve and the balance amount of ₹ 3000426.00 has charged to Income and Expenditure Account.
- b) Gratuity liability is covered under the Gratuity-cum-Insurance Policy of Life Insurance Corporation of India (LIC). The present value of the obligation is determined based on an actuarial valuation, using the Projected Unit Credit Method. Actuarial gains and losses arising on such valuation are recognized immediately in the Statement of Profit and Loss. The amount funded by the Trust administered by the Society under the aforesaid Policy, is reduced from the gross obligation under the defined benefit plan, to recognise the obligation on a net basis.

**c) Commitments.**

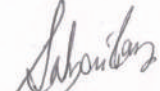

a. Commitments are future expenses and liabilities to be incurred on contracts outstanding at the reporting date which TF has little, if any, discretion to avoid in the ordinary course of operations, including:

b. Capital commitments of 77,79,000, which represent the aggregate amount of capital expenditures contracted for but not recognized as paid or provided for at the period end;

**Contingent liabilities**

A contingent liability is disclosed unless the possibility that it will be realized is remote. If it becomes probable that a contingent liability will be realized, a provision is recorded during the period in which the change of probability occurs.

**INDIPENDENT AUDITOR'S REPORT**

**The Members**  
**Tomorrow's Foundation,**

**1. Report on the financial Statement:**

We have audited the accompanying financial statements of Tomorrow's Foundation (The society, registered under the Societies West Bengal XXIV Act, 1961, vide no. SO086745 dated 24<sup>th</sup> April 1997), which comprise the Balance Sheet as at 31<sup>st</sup> March 2022, the statement of Income and Expenditure Account for the year, and Statement of Receipt and Payments thereafter referred to as Financial Statements for the year then ended, and a summary of significant accounting policies and other explanatory information.

**2. Management's Responsibility for the Financial Statements:**

The members of the Board/Executive committee are responsible for the matters with respect to the preparation of these financial statement that give a true and fair view of the financial position, and financial performance of the society in accordance with the accounting principles generally accepted in India, including the Accounting Standards prescribed by the ICAI. This responsibility also includes the maintenance of adequate accounting records in accordance with the provision of the Act for safeguarding of the assets of the Society and for preventing and detecting the frauds and other irregularities. Selection and application of appropriate accounting policies; making judgements and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial control, that are operating effectively for ensuing the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and free from material misstatement, whether due to fraud or error.

### **3. Auditors Responsibility**

Our responsibility is to express an opinion on these financial statements based on our audit. We conduct our audit in accordance with the Standards on Auditing as applicable to the Society. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedure to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of the material misstatement of the financial statements, whether due to fraud or errors in making those risk assessment, the auditor considers internal financial control relevant to the Society's preparation of the financial statements that give true and fair view in order to design audit procedure that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by the management/ executive committee, as well as evaluating the presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

### **4. Opinion**

In our opinion and to the best of our information and according to the explanations given to us the aforesaid financial statements give the relevant information and give a true and fair view in conformity with the accounting principles generally accepted in India:

- a) In the case of the Balance Sheet of the state of affairs of the Society as at 31<sup>st</sup> March 2022; and
- b) In the case of the Statement of Income and Expenditure of the surplus of the Society for the year ended on that date;

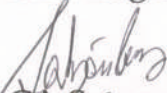

- c) In the case of the Receipt and Payments Account of the gross receipts and payments.

**5. Report on the other Legal and Regulatory Requirements**

- I. Further to our comments as mentioned above, we report as follows;
- a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit.
- b) In our opinion proper books of account as required by law have been kept by the Society so far as it appears from our examination of those books.
- c) The Balance Sheet and the Statement of Income and Expenditure Account, and Receipt and Payments dealt with by this Report are in agreement with the books of account.
